

Italian Packaging Solutions

Horizontal flow pack machine FAR

Innovating tradition. FAR is designed "today" based on the experience of "yesterday" and is the perfect synthesis between mechanical knowledge and technological progress.

Attention to detail. FAR is quite robust, essential, ergonomic, versatile, intuitive and very easy to clean.

Never alone. Thanks to the remote control, FAR is always connected to the IPS technical service.

A model in three sizes. FAR is available in three main versions depending on the product size.
